

# SCP-II: Salmon Collagen Proteoglycan Complex

## *New Generation Joint & Skin Health*

- Produced from salmon nasal cartilage in Hokkaido, Japan, **SCP-II** offers benefits for joint and skin health.
- **SCP-II** contains perfectly balanced Proteoglycan (>35%) and Undenatured Type II Collagen (>40%).
- Undenatured Type II Collagen effectively relieves knee joint pain.
- Proteoglycan promotes the production of collagen and hyaluronic acid, for healthy, beautiful skin.
- Extraction method using acetic acid produces highly purified product at a low cost.

### *Benefits for Joint Mobility*

- Supports production of collagen
- Aids in lubrication and flexibility of joints
- Promotes production of hyaluronic acid, reducing pain and stiffness
- Demonstrated efficacy against knee joint pain, particularly knee joint inflammation

### *Benefits for Skin*

- Improved moisture retention - 1.3 times that of hyaluronic acid
- Reduces wrinkles
- Brightens skin
- Tightens skin
- Smooths out rough patches
- Diminishes pores, blotches
- Promotes production of collagen and hyaluronic acid

### *Research*

Human studies suggest that Salmon-Derived Undenatured II Collagen and Proteoglycan may help to:

- Effectively treat autoimmune arthritic knee pain
- Improve and prevent knee inflammation
- Improve human skin condition, including skin elasticity, wrinkles, facial pores, blotches, moisture and smoothness
